First half 2011: high level of activity and sustained growth in financial results
2011 objective maintained

Performance in first half 2011
- High level of activity in Gas & Services
- Sustained growth in revenue, up +9.2%, and net profit, up +11.1%
- Increase in operating margin, at 16.7%, up +30 basis points (excluding impact of natural gas)
- Further investments in all businesses

Highlights
- Entry into Mexico and Ukraine
- Expansion in Chile, Saudi Arabia and China
- New development in the United States in the hydrogen energy sector
- 15 new contracts in the photovoltaic industry
- Acquisitions in Healthcare in France

Air Liquide’s Board of Directors, chaired by Benoît Potier, Chairman and CEO, met on July 29, 2011, and reviewed the Group consolidated financial statements at June 30, 2011.

The first half was characterized by sustained growth in both sales and net profit, further investments in all businesses, and the entry into new countries with high growth potential. Group revenue reached €7,115 million at June 30, 2011, representing an increase of +9.2% versus H1 2010 reported sales.

In Gas & Services, revenue reached €6,356 million, up +11.6% on a reported basis (+10.5% on a comparable basis), boosted in particularly by the momentum of Large Industries and Electronics. Growth continued in all geographies, at a significant pace in advanced economies (+7%) and at a very strong pace in developing economies (+28%).

The operating margin reached 16.7% (up +30 basis points on a comparable basis), thanks mainly to efficiency gains, which reached €132 million in the first half, in advance of the full year objective. Net profit (Group share) was €750 million, up +11.1% at June 30.

Net debt, at €5,580 million, is below the June 30, 2010, level and is not subject to refinancing in the coming months. The number of new investment projects, within a portfolio of opportunities totaling €3.7 billion at June 30, 2011, has remained high.

Benoit Potier, Chairman and CEO of the Air Liquide Group, stated:
“Business was sustained in the first half of 2011 and profits are up strongly. They reflect the positive momentum in our markets as well as the Group’s ability to achieve a solid operating performance in an environment that was affected by world events, notably in Japan and the Middle-East.

Our continuing research and innovation efforts in key technologies, as well as our investment decisions totaling nearly €1 billion at June 30, will help to support the Group’s medium-term growth.

As part of its ALMA 2015 program, the Group has strengthened its presence in developing economies, which today represent 21% of Gas & Services sales. As a result, our global presence, combined with our pioneering positions in high-growth markets, allows us to reinforce our fundamentals and continue our long term development.

In this context, and assuming normal economic conditions, Air Liquide is confident in its ability to continue to generate steady growth of net profit in 2011.”

Air Liquide is the world leader in gases for industry, health and the environment, and is present in 80 countries with 43,600 employees. Oxygen, nitrogen, hydrogen and rare gases have been at the core of Air Liquide’s activities since its creation in 1902. Using these molecules, Air Liquide continuously reinvents its business, anticipating the needs of current and future markets. The Group innovates to enable progress, to achieve dynamic growth and a consistent performance.

Innovative technologies that curb polluting emissions, lower industry’s energy use, recover and reuse natural resources or develop the energies of tomorrow, such as hydrogen, biofuels or photovoltaic energy… Oxygen for hospitals, homecare, fighting nosocomial infections… Air Liquide combines many products and technologies to develop valuable applications and services not only for its customers but also for society.

A partner for the long term, Air Liquide relies on employee commitment, customer trust and shareholder support to pursue its vision of sustainable, competitive growth. The diversity of Air Liquide’s teams, businesses, markets and geographic presence provides a solid and sustainable base for its development and strengthens its ability to push back its own limits, conquer new territories and build its future.

Air Liquide explores the best that air can offer to preserve life, staying true to its sustainable development approach. In 2010, the Group’s revenues amounted to €13.5 billion, of which more than 80% were generated outside France. Air Liquide is listed on the Paris Euronext stock exchange (compartment A) and is a member of the CAC 40 and Dow Jones Euro Stoxx 50 indexes.
