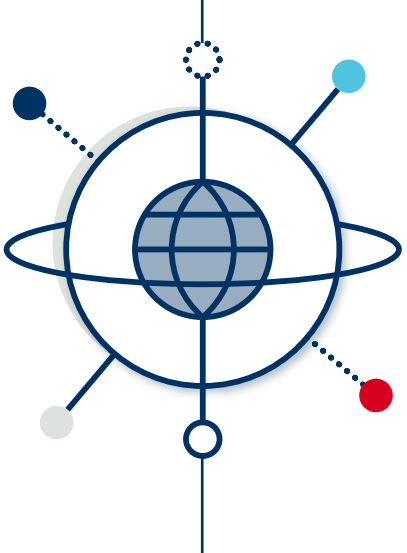
DATA SUMMIT 2020

Air Liquide

AIR LIQUIDE DATA SUMMIT 2020: 100% DIGITAL

In 2020 the second edition of the Air Liquide Data Summit was 100% digital. What was a challenge turned into a real opportunity: coming together remotely, through an open and inclusive event, to get inspired, learn and share insights on data and AI, an exciting and limitless topic! Overall, the participation rate exceeded 3000 connections from all over the world and was representative of all business lines and functions! You shared your appetite to explore this topic from various perspectives. A number of you participated in 5 or 6 sessions, some even more.



STRONG MOMENTUM

4
days to explore how data accelerates value creation

48
Internal and external speakers for academic, research, and business perspective

26
sessions to learn new things, share visions and get inspired

3,000
connections from all over the world and different business horizons

FASCINATING TOPICS

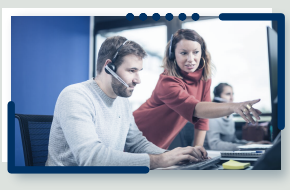
ADDRESSED FROM DIFFERENT PERSPECTIVES

How are data shaping the future of industry? How do we scale up?

How AI transforms companies: making sure you are a leader, not a lagger

How can we cultivate AI skills to make organizations thrive?

How can we make the most of our data in their current quality conditions?



Who are the right customers for strategic advantage?

... And many other subjects!

A TAILORED APPROACH FOR A WIDE RANGE OF AUDIENCES

Times for inspiration, knowledge sharing, and skills development were covered through a diversity of formats
