

How to register your shares?

What are the steps to take?

To intermediary registered shares^(a)

You hold your shares in a financial institution (“bearer form”). **It is up to you to initiate** with your financial institution the request to **convert** your shares from “bearer” to “intermediary registered”.

- **Ask your financial institution directly:** it may offer it on its website;
- or**
- **Send to your financial institution the Air Liquide conversion of intermediary registered shares form completed by you.** It can be downloaded from airliquide.com or requested from the Shareholder Services Department.

Following this conversion, your shares will be registered in the Air Liquide register in your name while your securities account remains with your financial institution.

To direct registered shares^{(a)(b)}

You hold your shares in a financial institution (“bearer shares” or “intermediary registered shares”). **It is up to you to ask** your financial institution to **transfer your shares** directly to Air Liquide (“direct registered shares”).

- **Send to your financial institution the Air Liquide transfer of direct registered shares form completed by you.** It can be downloaded from airliquide.com or requested from the Shareholder Services Department.

Your financial institution will carry out the transaction and inform Air Liquide. The Shareholder Services Department will then send you an Account Agreement that you will have to return to us completed to finalize the opening of your securities account with Air Liquide.

(a) Conversion fees and processing times may vary; please contact your financial institution.
(b) Excluding securities held in a Share Savings Plan (PEA in French).
