

## (2) Financial Transaction Tax:

Financial Transaction Tax is payable on purchases of equity securities issued by eligible companies. A ministerial order published each year establishes the list of companies which are included within the scope of the tax.

## (3) Types of order:

- **"Market order"**: This type of order takes priority over "best orders" and "limit orders". The Holder is guaranteed full execution provided that prices are being quoted for the security, but does not control the price. When the market opens, the order is executed at the opening price. During a trading session, the order is converted into as many limit orders as necessary to fill the order amount.
- **"Limit order"**: This type of order involves a minimum selling price or a maximum purchase price. For a buy order, the order will only be executed if the price is lower than or equal to the specified limit. For a sell order, the order will only be executed if the price is higher than or equal to the specified limit. Execution of a limit order depends on the existence of a counterparty willing to buy or sell enough securities at one or more prices compatible with the limit. A limit order gives the Holder control of the trading price, but the execution of such an order may be only partial.
- **"Best order"**: A "best order" does not involve any price limit. It gives the Holder access to the best price available at the time the order hits the market, although no guarantee is given regarding execution. It is automatically converted into a limit order by the quotation system. When the market opens, a limit equal to the opening price is applied. During a trading session, a limit equal to the best price for a pending trade in the opposite direction is applied.

## (4) Validity period:

- **"Day order"**: the order may only be executed during the current trading session.
- **"Month order"**: the order will remain on the market until the end of the calendar month during which it was received.
- **"Specified date order"**: unless the order is executed or cancelled, the order will remain on the market until the date indicated or the previous trading session if the date indicated is not a trading session. A "Specified date order" has a maximum duration of two calendar months.

If no validity period is indicated, an order will be recorded as a "Month order".

## Buy orders:

Except for the purchase of rights forming broken lots in the context of securities transactions, the acceptance of a purchase order may be subject to the prior receipt by Uptevia of a provision representing the estimated amount of the transaction, increased by fees, commissions, and, if applicable, related taxes.

## NB: Changes in the share price when the dividend is paid:

Before the shares go ex-dividend: the value of the share includes the value of the dividend to be paid.

After the shares go ex-dividend: the value of the share falls by the value of the dividend.

When a share goes ex-dividend, order limit prices are adjusted.
